LFCS: Linux Networking

INTRODUCTION TO LINUX NETWORKING AND THE ASSOCIATED CERTIFICATION

Andrew Mallett
LINUX AUTHOR AND TRAINER

@theurbanpenguin   web.theurbanpenguin.com

Gain Professional Linux Certifications

LFCS

Linux Foundation Certified SysAdmin

RHCSA

Red Hat Certified System Administrator

Module Overview

- Linux Foundation and LFCS Certification

- Red Hat RHCSA

- Lab Environment

- Pluralsight Courses

- Course Contents

Lab Environment

CentOS 7 Master .... master

Host System Using VirtualBox

CentOS 7 GUI server1

CentOS 7 CLI server2

LFCS: Linux Essentials (Complete First)

LFCS: Linux Operation Essentials

LFCS: Linux User and Groups Management

LFCS: Linux Storage Management

LFCS: Linux Networking

LFCS: Linux Service Management

LFCS: Linux Virtualization Management

LFCS: Linux Networking

Hostnames

NTP

Network Services

Firewalls and Routing

VPN

Network Monitoring

Demo

ip vs ifconfig

Summary

Certifications

What we cover and how you can be certified

Lab Environment

VirtualBox and 3 CentOS 7.2 hosts

How You Learn

Lots of demos and work along with them

Next up: Configuring Hostnames
